WORK EXPERIENCE

Head of Product | Ratofy - Remote   *04/2023 - Current*
- Created the Generative AI features within the app
- Used XMTP to create the entire chat system
- Created the Post Like/Dislike feature
- Responsible for bug fixes, UI implementation and development of new features

Lead Mobile Developer | Crezam - Bangalore, KA   *10/2022 - Current*
- Experimented with multiple iterations during design implementation.
- Created the initial MVP for the platform
- Architected the entire application from scratch
- Developed the Complete Authentication System
- Integrated PushNotifications, CodePushing(Shorebird), UpdateChecking and a lot more
- Lead a team of 3 developers to finish development before launch

Freelancer | [Under NDA] - Remote   *12/2021 - 02/2022*
- Collaborated with the CEO & CTO to define project requirements and deliverables.
- Negotiated fees and contracts to reach mutually beneficial agreements.
- Created the Mobile application from scratch and closely worked with the Backend Team to meet the deadline
- Wrote extensive technical documentation to help the future developers

Freelance Mobile Developer | Atlas Knowledge - Remote   *06/2021 - 08/2021*
- Created the Mobile Application from scratch according to specified design
- Closely worked with the CTO to interface between frontend and backend
- Integrated AppTransparency and Share Intents which was quite a learning curve for me

PROFESSION RELEVANT SKILLS

- Programming languages & frameworks include: Flutter, Dart, Python, Flask, Javascript, Svelte, HTML, CSS, Solidity, Java, Visual Basic, Visual C#
- Strong decision maker, critical thinker and creative designer with the ability to think around problems to unusual yet highly effective solutions.
- Quick learner with high agency and excellent communication skills

HOBBIES AND INTERESTS

Outside work, I like to disconnect and unwind in the great outdoors. My favorite activities include hiking and exploring new places. I am Deeply passionate about Space & Rocket Technology and Gene Editing
